

Phoenix FS0430E Series

Fire Fighter

Designed to meet the requirements of a large capacity fire resistant safe for residential and business use.

- The modern, compact design and high quality finish disguises a safe that will protect its contents from fire at temperatures of 1050°C for 90 minutes. NT Fire 017-90 Paper Test.
- The FS0430E Series also features a 30ft drop test and Fire Explosion test by UL laboratories USA, making it not only fire resistant but capable of surviving a collapsing building.
- It will also meet the stringent insurance requirements of an overnight cash rating up to £2000.00*.
- High security electronic lock programmable with users own code up to 14 digits in length.
- High quality scratch resistant paint.
- All sizes are fitted with lockable drawer.
- To warn of attack or unauthorised entry the integral security alarm activates and emits a high volume siren to deter possible criminal action.

The body of the FS0430E Series safes is constructed from galvanised steel plate with a virtually airtight recessed curvature door. This specially designed door prevents fire and smoke damage to the contents of the safe. Furthermore each safe is insulated with an amazing fire resistant material that actively repels heat.

Every Phoenix Fire Fighter FS0430E is complete with shelf units to suit any combination of requirements and maximise its large interior capacity. This attractive safe is ideal for the protection of important documents such as insurance policies, passports and share certificates.

All Phoenix Fire Fighters are manufactured and tested for up to 90 minutes and are approved by authorities around the world. In addition, **Phoenix guarantee to replace completely free of charge, any safe involved in a fire** – a demonstration of our faith in this unique product. So relax with the security of a Phoenix Fire Fighter.
