Certification

S1 Burglary Protection

The whole range has been certified by ECB•S in accordance with the EN 14450 standard for burglary protection to Level S1.

Locks

Each model can be fitted with a key lock or an electronic lock. The key lock is certified by ECB•S according to EN 1300 Class A and the electronic lock is certified Class B.

Key Lock

Operate by turning the key and pulling the door open.

Electronic Lock

Enter your PIN code using the key pad and simply turn the handle to open the door. The door locks automatically again when shut and the handle is turned back to its original position. The lock can be programmed with your own 6 digit PIN code.

Interior Fittings

Shelf

One removable shelf standard with all models.

Lighting

Electronic locking models have an integrated LED light which turns on when the safe door opens.

Construction

Boltwork

The door is secured by 25mm-diameter bolts. The boltwork is further protected by manganese steel anti-drilling plates.

Door & Body

Door is made of 8mm-thick steel and body of 3mm-thick steel.
