

VAN VAULT MOBILE SECURITY SALES SPECIFICATION SHEET

VAN VAULT OUTBACK

PART NUMBER: S10260

Van Vault Outback is designed specifically for open-backed vehicles to protect tools from both the elements and opportunistic thieves.

Cabstar or flare side, Outback fits neatly against the bulkhead.

KEY FEATURES:

Lock Housing

2mm reinforced mild steel.

Gas Strut

Anti-trap support arm ensures a soft open/close lid action

Siren Holes

Dock the optional anti-theft 'screamer' alarm

Lock

2 x Van Vault branded 70mm high security disc lock integrated into lid lock housing for extra security (part number S10029)

Keys

Supplied with 3 keys (per lock). To prevent losing keys during transit they are attached to the lid.

Comfort Grip Handles

Flush fitted for easy lifting and shifting

Integrated Hinge

Single hinge pin welded into the body and lid—no bolts, screws or rivets, making it almost impossible to remove.

Lid Stay

Lid Stay system that prevents finger trapping.

Low Visibility Lid

To camouflage the Van Vault from the prying eyes of a passing thief.

Paint

Lid—Black Polyester semi-gloss, textured for scratch and chip

Resistance

Body—Yellow Gloss

| | |
|----------------------|---|
| SIZE | 1335x555x490mm (LxWxH) |
| WEIGHT | 60kg |
| CONSTRUCTION: | 2mm HR4 (<i>Hot rolled grade 4</i>) Mild Sheet Steel |

OTHER FEATURES:

Paint Finish

Fully degreased and phosphate (for prevention of corrosion)

Reinforced Fitting Points

1 in each corner of the container

Bulkhead Compatible

Designed specifically to fit against the bulkhead of open backed vehicles. A clearance of 51mm (2") must be left between the rear of the Outback and the vehicle bulkhead to allow the lid to open freely.

Full User Instructions

Complete with registration card and trouble shooting guide.
